COMPANY

CVK Travertine and Marble Inc. was established in 2005 with a strong vision and solid foundations in the natural stone sector and is one of the leading travertine and marble producers and exporters of Türkiye located in Torbalı, İzmir.

We have an annual production capacity of 1,500.00 m² of Travertine, marble and natural stone in our own 18,000 m² closed and 7,000 m² open factory.

With the latest Italian Machine technology, we export our wide product portfolio as slabs, cut-to-size or blocks to our most valuable customers in 5 continents.

We are proud to be one of the leading travertine and marble producers and exporters of Türkiye since the day we have been founded. Our company, headquartered in Torbalı district of İzmir, one of the regions considered to be the heart of natural stone, makes a difference in the sector with its quality production, strong infrastructure and service approach based on customer satisfaction.

MARBLE COLLECTION

TERRA GREY

- ***It carries the noble and balanced stance of grey tones and with its unique vein transitions on its surface and slightly hazy texture, it brings a classy and sophisticated atmosphere to the environment it is in. It adapts to both minimal and ambitious designs with its simple but impressive structure.***
- ***Terra Grey, which is compatible with many colors and textures with its neutral gray tones and offers long-lasting use thanks to its density and durability, is frequently used both in interior and exterior spaces and is preferred in projects such as stair steps, countertop and sink surfaces, modern facade cladding, hotels, offices and commercial areas.***
- ***An ideal choice to create a dazzling atmosphere at every step and to design timeless projects with modern lines.***
- ***Cut to size option is available.***

**Product colors may vary depending on environmental parameters and monitor settings.
Please base your sample on the details.*

KING BEIGE

- ***It is a distinguished marble that combines the magnificence it derives from its name with the elegance of natural stone and has impressive, warm tones. With its elegant vein structure spread homogeneously on a soft beige background and its natural brightness; it provides an elegant balance in modern projects and a noble stance in classic designs. King Beige adds value and elegance to your projects, not just color, while providing aesthetic integrity.***
- ***King Beige, which is used especially on floors and walls in interior applications, provides a natural brightness and a sophisticated look to the environment it is in. It has a wide range of usage areas from luxury housing projects to hotel lobbies, from store interiors to large public areas and exterior cladding.***
- ***King Beige, which is compatible with classical and modern architecture, is an ideal choice for aesthetic and noble projects.***
- ***Cut to size option is available.***

**Product colors may vary depending on environmental parameters and monitor settings.
Please base your sample on the details.*

OTTOMAN OYA BEIGE

- ***Ottoman OYA Beige, which combines classical elegance with modern lines, is inspired by the Ottoman elegance it bears its name. It brings a timeless atmosphere and serenity to living spaces with the aesthetic touch offered by natural stone, which combines the splendor of the past with the elegance of today, usually with light cream or beige tones and soft vein transitions.***
- ***Ottoman OYA Beige, which is compatible with all colors and materials and provides a holistic appearance in large areas thanks to its light-toned color and homogeneous structure, has a wide range of usage areas from floors to walls, bathroom and kitchen surfaces to lobby areas.***
- ***Ottoman OYA Beige, a prestigious natural stone that gains value over time, is a perfect choice for magnificent, noble and timeless projects.***
- ***Cut to size option is available.***

**Product colors may vary depending on environmental parameters and monitor settings.
Please base your sample on the details.*

CEPPO GREY

- **Inspired by Italy's famous "Ceppo di Gré" stone, Ceppo Grey is a special stone that draws attention with its large-grained and natural mosaic appearance, exhibits a strong stance with its characteristic structure, and is an indispensable part of modern elegance in many application areas. Ceppo Grey's natural stone particles scattered on the gray ground create a unique pattern on each plate. This unique stone adds aesthetic depth and visual feast to spaces.**
- **Ceppo Grey, which is compatible with modern and industrial designs and also has an aesthetic appearance, is preferred in many areas of use such as floor and wall coverings, exterior facade coverings, fireplace surrounds, lobby entrances, bathroom and counter surfaces, hotel, shopping mall and corporate area projects.**
- **The unique character of natural stone is felt in each plate; it is a perfect choice for your interior and exterior projects where a sophisticated and powerful effect is desired.**
- **Cut to size option is available.**

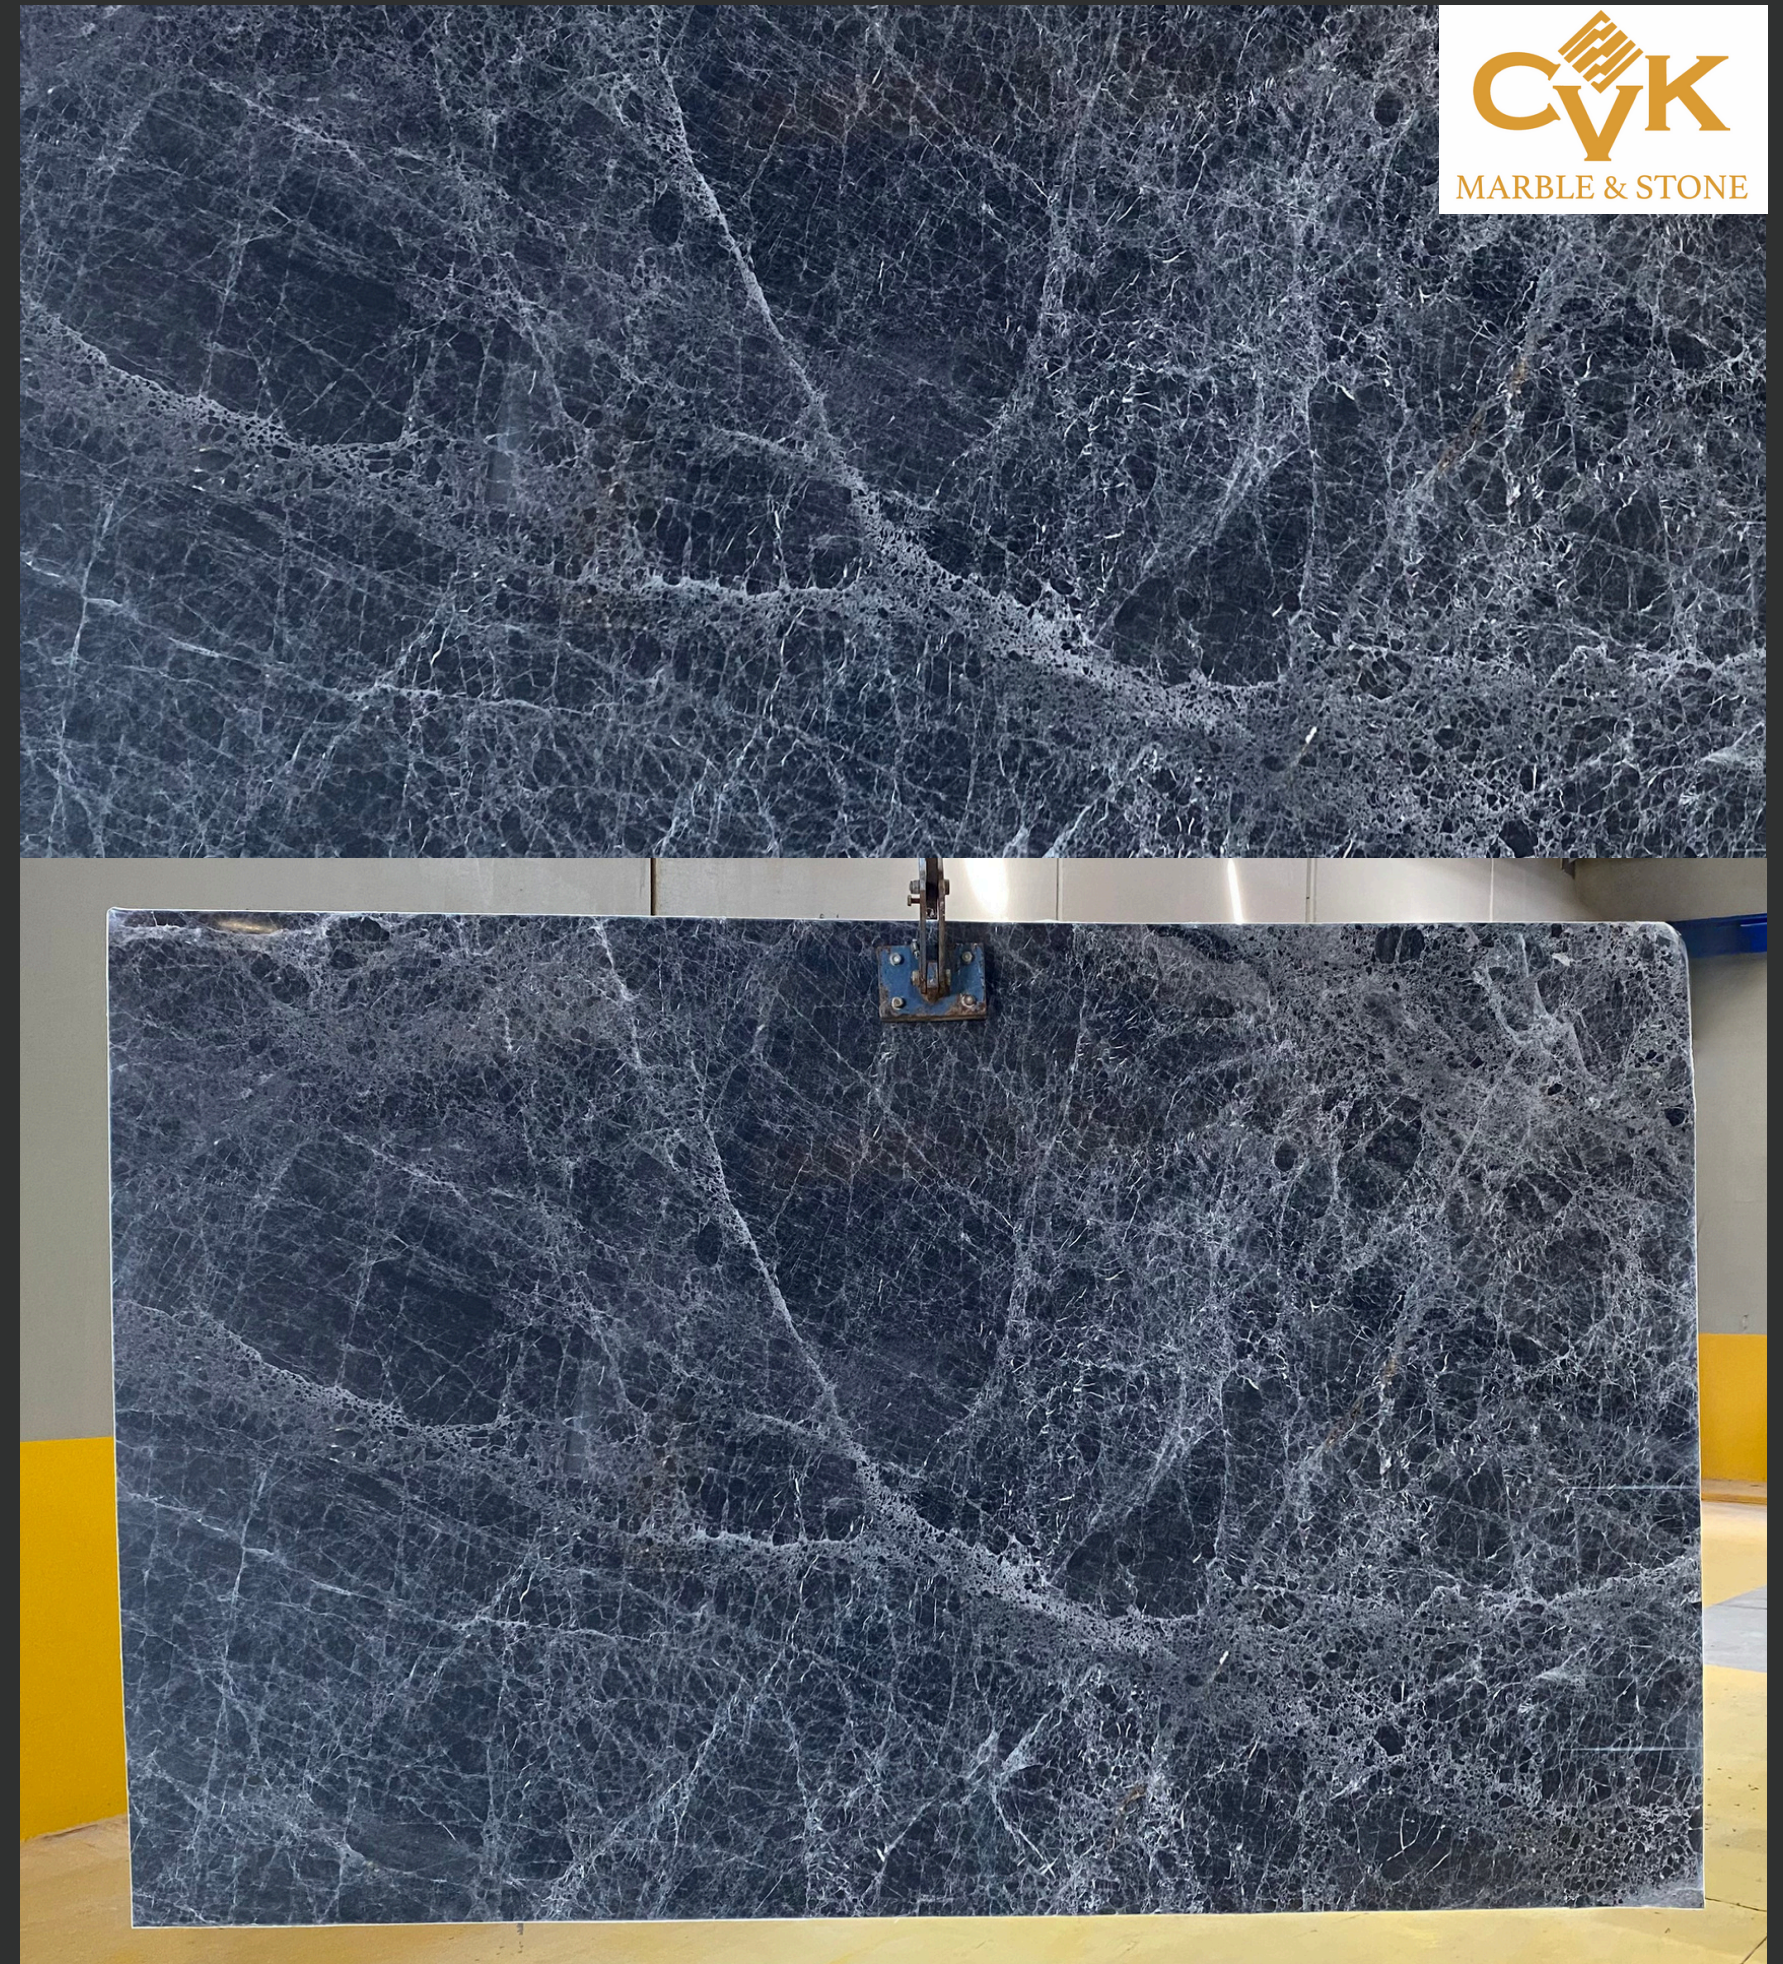

**Product colors may vary depending on environmental parameters and monitor settings. Please base your sample on the details.*

ELEGANT GREY

- ***Elegant Grey which combines the elegance in its name with the calm and sophisticated world of grey tones, gives a strong stance to interior and exterior spaces. With its fine vein structure and soft transitions on a homogeneous grey background, it perfectly matches both modern and classic designs.***
- ***Elegant Grey , which Brings simplicity, clarity and high aesthetics to spaces, has a wide range of usage areas in interior and exterior spaces, from hotel lobbies to housing projects, from private bathrooms to facade cladding.***
- ***It offers aesthetics and durability together and is a prestigious choice in luxury segment projects while creating a simple yet striking effect with its elegant grey tones.***
- ***Cut to size option is available.***

**Product colors may vary depending on environmental parameters and monitor settings.
Please base your sample on the details.*

SPIDER BEIGE

- ***It is a sophisticated marble variety that draws attention with its distinct white vein structure on a BEIGE background. This special stone, which takes its name from its vein structure resembling a spider web, offers unique patterns on each plate, adding character and dynamism to spaces.***
- ***It can be easily used in indoor and outdoor applications, especially preferred for flooring, stair steps, kitchen and bathroom countertops, lobby and reception areas and decorative details.***
- ***An ideal choice for stylish projects that are both functional and aesthetically pleasing and durable.***
- ***Cut to size option is available.***

**Product colors may vary depending on environmental parameters and monitor settings.
Please base your sample on the details.*

ANTIQUÉ GREY

- **Antique Grey, which is in harmony with a wide range of designs from classic to modern, offers a modern but warm atmosphere to spaces while containing character and depth in each plate with the serenity of its grey tones and the soft transitions in its natural vein structure.**
- **Light and dark contrasts in the natural vein structure create a depth and movement effect on the surface of the stone, while providing long-lasting use in both interior and exterior applications. It is preferred in areas such as floor and wall coverings, stair steps, interior countertops, bathroom applications, fireplace surrounds, hotel and lobby designs.**
- **An ideal choice for timeless projects that value aesthetic details.**
- **Cut to size option is available.**

**Product colors may vary depending on environmental parameters and monitor settings.
Please base your sample on the details.*

FETHİYE LIGHT BEIGE

- ***This special stone, which provides a sense of peace and spaciousness in interior spaces with its light tones and simple vein structure, brings a soft light and a balanced atmosphere to living spaces with its sophisticated surface inspired by nature and warm color palette.***
- ***With its natural color balance, it is easily preferred in both modern and classic designs. It has a wide range of uses from interior floor applications to wall coverings, from bathroom and kitchen countertops to stair steps. Fethiye Light BEIGE, which is compatible with minimal, Mediterranean-inspired, modern and classic designs, creates a timeless elegance in spaces.***
- ***It is an ideal choice for stylish projects that want to combine the elegance that comes from simplicity with elegant designs.***
- ***Cut to size option is available.***

**Product colors may vary depending on environmental parameters and monitor settings.
Please base your sample on the details.*

PATARA

- ***This special stone, which takes its name from Patara, which fascinates with its ancient beauty, brings a warm and sophisticated atmosphere to spaces with the elegant harmony of cream and beige tones. It creates serenity and integrity in spaces with its soft transitional vein structure on each plate and the harmonious distribution of color tones. It makes spaces look wider and brighter with its light-reflecting surface and light color tones.***
- ***Providing uninterrupted aesthetics on large surfaces with its homogeneous structure, Patara is preferred in many areas such as interior floor and wall coverings, stair steps and windowsills, counter surfaces, hotel lobbies, residences and villa projects, decorative panels and column coverings.***
- ***It is an ideal choice for those ones looking for perfect harmony born from simplicity with its wide range of designs from minimalist details to classic forms.***
- ***Cut to size option is available.***

**Product colors may vary depending on environmental parameters and monitor settings.
Please base your sample on the details.*

EMPERADOR

- ***This special marble, which has a warm and sophisticated visual with its elegant white veins spread over a brown background and brings together the nobility of natural stone and the magnificence of modern design, carries the signature of nature on every plate. While creating a luxurious, stylish and rich atmosphere, it adds contrast and depth to spaces with its color.***
- ***It has a wide range of usage areas, especially preferred in hotel lobbies, luxury bathrooms, fireplace surrounds and prestigious interior design projects, in rich and wall coverings in interior and exterior spaces, bathroom and kitchen flooring.***
- ***Emperador, with its timeless elegance coming from the elegance of brown, is an ideal choice for projects with a luxurious and rich atmosphere.***
- ***Cut to size option is available.***

**Product colors may vary depending on environmental parameters and monitor settings.

TRAVERTINE COLLECTION

“Vein Cut & Cross Cut”

VEIN CUT TRAVERTINE ^(TURKISH CUT)

- **Characterized by its horizontal vein structure, Vein Cut Travertine (TURKISH CUT) brings the unique lines formed by nature over millions of years to modern living spaces. The warm color palette ranging from beige to cream tones adds natural depth and warmth to spaces, while the horizontal vein structure transitions provide architectural integrity and visual flow.**
- **Vein Cut Travertine (TURKISH CUT) creates a sophisticated balance, especially in modern and rustic designs. It has a wide range of uses, from floors to walls, from bathrooms to exterior cladding, from stair steps to pool surroundings and landscaping projects. It also offers safe use in outdoor areas with its non-slip properties and natural texture.**
- **This special stone, with nature's signature in every line, is an ideal choice for projects that want to create a timeless aesthetic in every detail.**
- **Cut to size option is available.**

**Product colors may vary depending on environmental parameters and monitor settings. Please base your sample on the details.*

VEIN CUT TRAVERTINE ^(TURKISH) _{CUT}

Polished Vein Cut

Honed Vein Cut

CROSS CUT TRAVERTINE (AMERICAN CUT)

- **Cross Cut Travertine (AMERICAN CUT), which draws attention with its natural cloud-like patterns formed by its complex vein structure, creates a peaceful and balanced atmosphere in living spaces with its soft transitional texture reminiscent of the sky and warm beige tones.**
- **Cross Cut Travertine (AMERICAN CUT), which offers a homogeneous and calm surface appearance with its cloud-like pattern and surface structure compatible with light, has a wide range of usage areas such as interior floor and wall coverings, bathroom and sink areas, stair steps, hotel, villa and residence projects, decorative surfaces and niche coverings, pool surroundings and landscape projects. In addition, it provides visual integrity on large surfaces in terms of its surface features.**
- **Working in harmony with natural light and offering hidden splendor in simplicity, this stone is an ideal choice for those looking for timeless elegance in their spaces.**
- **Cut to size option is available.**

**Product colors may vary depending on environmental parameters and monitor settings.
